# Business amidst lush greenery

SETIA City Convention Centre is nuzzled within a 97.1ha green commercial hub in Setia City, at the heart of Shah Alam.

Modern, elegant and striking in architecture and interior, the Setia City Convention Centre has plenty to offer.

Especially outstanding is its meeting facilities that cater to the various conference requirements as well as products that suit the clients' expectations.

Conference and meeting organisers are spoilt for choice with the Grand Ballroom that seats up to 1,500 banquet or 3,000 theatre seating.

Pre-function lounges located on the ground floor with seamless

access and six function rooms at the mezzanine floor are lit with natural light, creating a bright and easy ambience for seminars or conferences.

With seating capacities ranging from 20 to 90 people, guests can be assured a memorable and successful event with the assistance of the experienced catering team.

The ballroom can be further divided into three smaller ballrooms that cater to 500 guests each.

As a prelude to the main event, the pre-function foyer can host up to 2,000 guests for a welcoming cocktail-cum-reception area.

When it is time to get down to business, hold a meeting or host a large function at Setia City Convention Centre, as it has rooms to suit a client's every need.

Close to the reception area is the Boardroom that can seat up to 12 persons for those who need a quick and convenient meeting space.

Apart from its exquisite architecture and interior, Setia City Convention Centre offers nothing short of a panoramic view of the beautifully landscaped gardens and a scenic lake – perfect for team building or family day get-togethers.

Setia City Convention Centre offers seminar package options that can be customised to suit one's taste and preference.

The package includes complimentary usage of meeting room, standard writing materials, meeting amenities, including mineral water and mints.

It also includes the complimentary usage of a whiteboard or flip-chart with marker pens and eraser

set, LCD projector screen, standard PA system with maximum two units of wired microphones and Wi-Fi in the seminar room.

This extraordinary building is not just a stunning masterpiece but is set to be the Klang Valley's latest certified building by Malaysia's Green Building Index, thanks to its green features that span rainwater harvesting, solar panning, LED lights, an Energy Management System that tracks utility

consumption and designated parking for green vehicles.

Apart from creating a business that is truly international, SP Setia has simultaneously renewed focus on its core market.

Setia City Convention Centre stands as a prime example of a grand project that combines the best in hospitality and up-to-date facilities.

This elegantly crafted centre showcases SP Setia's fundamental principle of long-term sustainability and "LiveLearnWorkPlay" lifestyle.
